

# Brickapalooza

LEGO® Bricktictionary (Age 5-8) or (Age 8-12)

A fun game of LEGO charades. Students are broken into groups with each group asked to build a different object. Using our customized rule set groups try and guess what the others are building with points given to both the building team and the guessing team.

This class requires children to work as a team in order to build their object as well as try and guess others objects with a limited number of guesses available to them.

Based on game flow teams will be rearranged and balanced throughout the class. For the younger age groups simpler objects are given to build. Helpful hints are given as needed from the instructors. The goal of this class is to get the children working cooperatively.

Some Challenge Ideas...

Chicken

Owl

Horse

Cow

Dog

Mouse

Plane

Car

Truck

Boat

House

Store

Tree

Flower

Banana

Pear

Apple
